Office of Planning and Budget

PREFACE

This book is designed to give the reader an overview of Georgia from a statistical perspective. Every effort has been made to publish the latest data available.

The demand for a statistical book that covers many program areas and is annually updated has been great for some time. As a result of this demand, the Georgia State Data Center (see Appendix 3 for a description of the State Data Center Program) began publishing the Georgia Descriptions in Data series in July, 1982. The second edition was subsequently published in July, 1983. While each edition contains data on similar topics, each edition emphasizes different areas and presents different statistics.

Georgia Descriptions in Data 1984 contains commuting data for Georgia counties, data for metropolitan statistical areas (as redefined after the 1980 census), state agency data on employment, school enrollment, health, revenues, and taxes collected as well as rankings of 1980 census data for Georgia cities. Georgia Descriptions in Data 1983 contains primarily data from the 1980 census for counties, including population, housing, labor, income and education items. It also contains population projections by county for the years 1990 and 2000. Georgia Descriptions in Data 1982 contains 1980 census data on population and housing as well as state agency data on public safety, transportation, agriculture, health, parks and natural resources. Please refer to the Subject Index for a more complete listing of subjects covered separately by each edition.

Explanations relevant to individual tables and sources are listed after Table 34. Appendix 1 helps the reader to determine which state agency is responsible for data in a particular subject area. Appendix 2 lists the departments of Georgia State Government and gives addresses and phone numbers. Appendixes 1 and 2 used together will give the reader tremendous help in locating types of information.

It is our hope that this book proves useful in providing frequently needed data. We plan to update the book annually and expand the scope as needed. Suggestions on new tables to include are welcomed. For this purpose or to request additional information on a table, contact Tom Wagner, Elizabeth Aloï or Jeff Browning with the State Data Center of the Georgia Office of Planning and Budget (404-656-2191 or GIST 221-2191).

CONTENTS

<u>TABLES</u>	<u>PAGE</u>
Georgia Profile	9
I. POPULATION	
1. Population Growth 1980-1983 For States	17
2. General Characteristics For Selected States, 1980	19
3. Rankings For Selected States	20
4. Summary of General Characteristics By Metropolitan Statistical Area	27
5. Summary of General Characteristics By County	31
II. HOUSING	
6. Median Value of Homes and Median Contract Rent By Rank By Incorporated Place, 1980	35 50
7. Housing Characteristics For Selected States, 1980	
III. INCOME AND ECONOMIC DATA	
8. Personal Per Capita Income, Persons And Families Below Poverty Level For Selected States	51
9. Millage Rates And Selected Tax Statistics By County	52
10. Taxable Sales, Motor Vehicle Registrations, Gross Income, And Property Digest By Rank By County	56
11. Wealth By School Systems, 1982-83	60
12. Per Capita Personal Income By County, 1982	65
13. Per Capita Income, Median Family Income, And Persons Below Poverty Level By Rank By Incorporated Place, 1979	67
IV. EDUCATION	
14. Years of School Completed By Persons 25 Years And Over For Selected States, 1980	82
15. Public And Private School Enrollment (Fall) And Median School Years Completed For Selected States	83
16. Public College Fall Enrollment In Georgia For Selected Years	84
17. Degrees And Certificates Awarded By University System of Georgia	85
18. Private School Enrollment And Public School Enrollment, High School Graduates By County	88
18a. High School Graduates By Rank By Incorporated Place, 1980	104

TABLESPAGE

V. EMPLOYMENT

19. Employees In Nonagricultural Establishments For Selected States, 1982	111
20. Employed Persons 16 Years And Over By Class Of Worker For Selected States, 1980	113
21. Selected Labor Force Characteristics For Georgia	114
22. Average Weekly Wage, Unemployment Payments, And Labor Force Estimates by County	115

VI. BUSINESS AND INDUSTRY

23. Industrial Growth For Georgia	119

3. GEORGIA STATE DATA CENTER PROGRAM

The Georgia State Data Center Program is a cooperative arrangement between the U.S. Bureau of the Census and the Georgia Office of Planning and Budget. Additional participants in the Program are as follows:

The Georgia Department of Community Affairs
Georgia State Health Planning and Development Agency
University of Georgia Computer Center
Albany State College Library
Georgia Southern College Library
Georgia State University Library
Mercer Law School Library
University of Georgia Main Library
Georgia Institute of Technology Main Library
Georgia Area Planning and Development Commissions

The fundamental objectives of the Program are as follows:

1. Provide access to census data and assist local governments, planning commissions, and private businesses in utilizing the information.
2. Promote an even distribution of services to all areas of the State.
3. Expand the number of persons qualified to offer training and technical assistance to others on such subjects as what census statistics are available, how to read census tables and tape technical documentation, and approaches to effective use of the data.
4. Develop new methods for improving the distribution and utilization of data from the 1980 Census.
5. Increase user awareness of census products.
